Reasons for allowance

1. The following is an examiner's statement of reasons for allowance:

Applicant's claimed invention distinguished over the prior art for the following reasons. The claims are allowable over the prior art of record because none of the references, either alone or in combination, discloses or renders obvious the method for automatically selecting and assigning non-overlapping private IP addresses comprising the steps of setting an internal address space to a default private IP address space, wherein IP addresses from a private address space are not directly accessible from the public internet; receiving a provider private IP address and range; determining if the default private P address space overlaps with the provider private IP address and range; and selecting a largest available non-overlapping private P address space if the default private IP address space overlaps with the provider private IP address and range.

Conclusion

2. Any comments considering necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee.
